Thanks Janet. I changed my slide to µg/L.
On the map thing, I can make it its own slide but it doesn't blow up super well unfortunately.

These look great. The map on slide 2 is good but could it be enlarged or can we enlarge when we brief him? I'm not sure if he's into maps.

Also, you say ppb, and I used ug/L in the briefing paper, we should probably be consistent.

Hi Janet,

Attached are my slides. David hasn't looked at them yet and my eliminate one or more...
But if you have any thoughts, let me know. Thanks

Emmanuelle

Your edits are ok with me and having some slides on the HAMP is fine.
I'll leave it to the rest of the team to finalize this since I won't be around the next few days.
E—if you send me the slides soon I can look at them if you want.

Hi Janet,

I've attached my minor suggested edits. I am preparing four slides for the RA briefing on Tuesday. David is taking a look at them right now and I can forward those on to you once he's reviewed them. I mainly proposing talking about what the HAMP is, how much it costs and the timeline moving forward.

I prefer to call the HAMP a new regional water system rather than a consolidation project because the later suggests that we would be utilizing an existing source, whereas with the HAMP we're basically building everything new, except for the existing distribution systems.

Thanks

Emmanuelle

Hi Emmanuelle,
I updated a briefing paper for the RA and have it attached. It is draft and needs some input from ENF and WD.
My understanding is you are also putting together some information too.
As I conveyed to ENF, I'm going to be out of the office starting tomorrow, and not back until Monday around 11:30 am.

Taking Thanne off for now.
I updated the paper, please let me know what you think. I incorporated the points from Susan O'Keefe's briefing and also am suggesting taking out the table, but this is up to the program.

Please take a look at the paper again to possibly add the latest info we sent to HQ. This paper should be sufficient.

Roberto, I'm looking ahead to Tuesday's briefing and I'm not sure what we need to put together for the RA. This briefing paper is good and covers everything including the HAMP, but do we need to make any changes to it? It has a lot of focus on the communications between us and the Villages. I haven't briefed Mike Stoker yet so I'm not sure what he needs/wants.

I'm working today, but then out of the office until Monday at around 11:30 am, so I'm really only available today to assist if we need a briefing paper. Copying Thanne since you and Christina are out of the office.

Jonathan and Susan,

Attached is the latest Hopi villages briefing paper. Please let us know if you have any questions.
